Customer Reviews

“This book is a joy to read”
“Gives us a look into not only how the special effects were achieved but how the writers and producers have shaped the visual style of the series.”
“Unbelievable concept art from the show. Just seeing the detail behind the set locations and costumes makes you realize why the show is visually beautiful compared to other similar shows. There is not a wasted space inside the book, utilizing every inch to give the reader as much information as possible through art, photos, and text.”
“A must-have for all fans...5 stars”

This book is amazing covers all the characters locations gadgets ect behind the scenes look concept Arts it even has a height chart of all the characters showing Gorilla Grodd at 8 feet king shark at 13th feet and flash and arrow at 6ft this is a book that have if you're a fan of the DC CW shows

This is a fun, enjoyable companion piece to the hit CW television series, THE FLASH. The beautifully illustrated front cover is just a hint of the amazing photos and concept art which make up the book. The book itself is divided into four parts: Heroes & Allies, Villains, Locations and Weapons, Gadgets & Vehicles. A hero is only as good as the villains he fights. The Flash has always had a memorable rogues gallery: Captain Cold, Heat Wave, Reverse Flash, The Trickster and Gorilla Grodd (to name only a few). In fact, THIRTY-FOUR (!) villains are featured in the book.

Some of the lesser villains like Rainbow Raider get 1/2 a page, while the big guns like Grodd, Captain Cold and Reverse Flash get several pages devoted to each one. One of my favorite parts of the book is the Weapons, Gadgets & Vehicles section which gives us close-up looks at many colorful inventions like the Tachyon Harness, Captain Cold's Cold Gun, Vibe Visor and Flash Ring. Kudos to Abbie Bernstein and Titan Books for putting out such a fine product.

I bought this for myself as a treat but it would also make a good present for a fan. The choice of scenery, costumes and props covered is good and the text interesting. There is an explanation of where the various designers got their ideas and how the visual effects (VFX) team created flame, ice and so on. The book covers characters and items from the first two series, so if you haven't finished watching these (like me), there are spoilers. It's a good way of recapping the different villains and scenes (I watched the DVDs in a hurry because I liked the show so much that, fittingly, it was rather a blur). The reason it doesn't get five stars is that the photos are not in particularly high resolution. Yes, I DO put my reading spectacles on to look at it, and the text heading boxes (that's probably not the correct printing/publishing term) are lovely and sharp, whereas the images are not quite of the clarity I would expect. Also, the colour in the photos is rather dull, as if they were running out of ink; but clearly they weren't as the colour in the headings/logos etc is lovely and bright.

My sister loves this book. It has photos of the cast of the CW Hit The Flash in it. Including Cisco Ramon, Barry Allen, Harrison Wells and all the rest of them. A amazing book to buy if you enjoy the watching the CW Hit The Flash.

This is a really cool book to look at. It has insight of the making of The Flash. It has one part with the heroes and another with the villains from the show. Fans of the show you would really like this book!

Great photos!

Got this for my 8 year old that adores the flash. He loves it, enjoys all the great pictures and even all the writing! Fantastic book!!!
