Customer Reviews

"Lots of gorgeous photos and easy to follow instructions will have you crafting these beautiful projects in no time." --Stacie at Craft Gossip

Myra Callan is the creator of Twigs & Honey, an online store specializing in modern hair adornments. She has designed exclusive pieces for BHLDN (Anthropolgie's new wedding boutique) and was recently commissioned by Ann Taylor to design and create handmade paper flowers for

their window displays and accessory moments nationwide. Twigs & Honey pieces have been featured in The TODAY Show, Brides Magazine, LA Times, Weddings Unveiled Magazine, The DailyCandy, Portland Bride & Groom, Southern Weddings Magazine, WedLuxe Magazine, WellWed Magazine, Oregon Bride Magazine, Nonpareil Magazine, Get Married Magazine, and many more. Myra has also had a tutorial featured on Martha Stewart's Bride's Guide website in January 2010.

This book is pure eye candy but the author is very precise in showing how to execute her beautiful designs. A must purchase for those who enjoy handwork and unique creations.

A well written, superbly illustrated book of millinery techniques used by a leading bridal milliner, Myra Callan, Twigs and Honey. Techniques are explained in good detail. I think the DIY bride will appreciate the skill and craftsmanship it takes to create one of Myra's exquisite pieces and unless they are extremely gifted, decide it is well worth the money to purchase the original piece of art from the designer. Finding just the right materials, tools and having the time to practice...well...after all that you will then know why quality millinery is priced as it is. I ordered the book for my own millinery library, then had a chance to preview it through KindleUnlimited. I plan on using the same flower making techniques in wool needle and wet felt.

I make flowers for hats and this book has given me a variety of designs.

I think Myra is THE BEST at creating stunning bridal adornments. Her pieces are like a work of art. This book is perfect for the DIY bride who can't quite afford to spend \$100+ on a hair piece/belt/etc or for any sewer or fashion lover who is looking to create beautiful headpieces, belts or pins. The directions are simple and stated in a way that anyone can create something beautiful (or at least try!).

Love this book. Sent fast.

I originally bought this book because I love Elizabeth Messina who photographed all the images. But the projects themselves are so beautiful and inspiring. It not only got me excited for making these specific projects, which have clear and easy to follow instructions, but also got me excited for creating my own. It opened up the possibilities of what can be done and started me down the path of a whole new exciting world of creativity. I would highly recommend!

This is a nice book, a lot of projects I wouldn't make as I was looking for fascinators and headpieces only.

Exactly what I was looking for. Beautiful creations. Great descriptions. Great pictures. Thank you
