Customer Reviews

'What's cool about Phaidon Press' Wallpaper City Guides is that they're small enough to fit in a purse or backpack, and colorful enough to find amidst all the other stuff crammed in there. What's even cooler is that they cut through all the regular travel-brochurese and focus on the edgiest nightclubs, restaurants, hotels, gyms, spas and stores.' Sky-Delta Airlines 'Ultra-stylish.' Time Magazine 'Attractive and well-researched.' USA Today 'While the pocket-sized guides will look very slick lined up on a shelf, they're made for travelling.' Easyjet 'Concise, informative manuals from people who've actually been there. They're refreshingly devoid of details on the nearest backpacker's hostel, too. And they look very pretty.' Esquire 'Sophisticated but simple.' The New York Times

Wallpaper* City Guides are compiled by the magazine's travel experts, both by in-house editors, and correspondents who actually live in the highlighted cities, providing up-to-the-minute information.

There are very few guides singularly devoted to the city of Lyon, France. Sadly this slim volume does not fill that need. It is missing one of the most crucial items demanded by most travelers -- a map of the city. Wallpaper guides are meant to be small and portable and appeal to a hipster/design

crowd, but the hotel and restaurant recommendations are very high end and virtually out of an average traveller's price range. Yes, it is great to know the Michelin-starred restaurants and exclusive hotels, but this guide failed to give the highlights of a great, gastronomic city where you don't have to eat at Michelin-starred restaurant to find great Lyonnaise food or sites. Wallpaper City Guides have a niche to fill - this one doesn't do it.

my first and last wallpaper experience. very little information. better for posing on a bookshelf.
strictly for wallpaper fans

THIS BOOK WAS A WASTE OF MONEY. ALL IT GAVE WERE WEB SITE ADDRESSES. NO MAPS. HORRIBLE!

Like the contents & size.....not a book that you select not to take on vacation...takes up too much space
