Ellen Liberatori has worked in the nonprofit and grant-making sectors of philanthropy for nearly 30 years and has taught grant-writing for almost 15 years. She has been both a foundation director and a program officer. She currently lives in Cairo, Egypt, where she works for Ishraq, a development project of the Population Council.

I bought this book because of its title. Other books on the market discussed getting grants in general, and it was difficult to find one that focused solely on ART funding. I liked the fact that the writer has been active in the grant field for three decades. The information in the text proved the author's knowledge of the field. The basics alone are helpful, including such questions as: why and how giving-organizations exist, and how they think; what types exist and which one is best for a particular entity to seek; whom firms fund and why; how to get grants and the application process; how to find funding opportunities, and much more. "The Guide to Getting Arts Grants" is a true Insider's Guide to creative funding.

Great info that has helped me obtain grants.

I know far too many people that just look at grants and scholarships as free money, but this is not the intent or the reality. In essence you do receive funds, after a review of intent and qualification. This book goes into detail about what grants are really all about and it truly information. I view this book as an excellent resource and would like to express my gratitude and thanks to the publishers and author.

It was more like a guide to how to be a better artist and not a fuck-up had some good stuff

This guidebook is wonderful for getting you started on your art grant journey. I am new to the field and this is a must.

Useful and informative

exactly as described in the ad. well packed, arrived promptly, good book. one of the best on this subject. really!

I should have realized how outdated this would be.
