Customer Reviews

I've never been a comic book reader but I loved the film and couldn't wait three years for the sequel, so I took a chance. I realize that the comic book creators are in a tough spot trying to appeal to the faithful comic book readers while at the same time trying to appeal to new readers who only know the movie version of events which are quite different. That said I think, I liked the story which is a

nice balance between the two. Starlord's character is very like Chris Pratt's interpretation. And it's a good beginning, with a story line that has lots of room to grow. Remember that this is only the first volume and when are just beginning to learn the characters etc. I'm looking forward to reading more

GOOD GRAPHICS !!! VERY FUNNY IS SOME PARTS !!! I started this story with vol 3 then was gifted the rest vol 1 & 2 later . This is NOT the same character as in the movie ... but still a good read !!!

Sam Humphries is a genius at taking an already amazing character and giving him more depth and characterization. Whether you're a fan of the movie version of Star-Lord, the 2008 Guardians of the Galaxy or even the recent tv show, Legendary Star-Lord is definitely worth your time.

It's a good story with great art. Highly recommended for people planning on reading Black Vortex. Also a continuation from Infinity, but you can probably still enjoy this without reading it.

I really enjoyed this book. I have seen the movie and I enjoyed it as well. I will definitely recommend this series. I only wished it was longer.

Great Story, got hooked on the first issue!

I wish there were a way to zoom parts of the page. Sometimes I had to guess what was going on for a page because the print was too small.

My Son read this immediately and just loved it
