The Fifth Wife: A Risky Regency Romance

Synopsis

“Once one has rescued a sheep, one feels a little differently toward mutton stew.” • Charles Fontaine, *The New Forest*, 1817

Running away into the New Forest, in the depths of winter, isn’t the wisest course of action. But for Miss Hannah Derby, it’s her only escape. She doesn’t want to be part of anyone’s inheritance, let alone a man she’s never met. Charles Fontaine has never heard of the Penvale traditions or bequests, until he learns he’s inherited all of them. He’s tempted to run away as well, but Madam Fate won’t let that happen. She drives him into the New Forest, where he encounters a blizzard, sheep, the best ale he’s ever tasted—and one Hannah Derby. The destiny they’re both trying to avoid will bring them together to face danger, and breathtaking passion—all part of becoming the Fifth Wife.

Customer Reviews

Really like this author----when describing something(anything),she explain it,but does go on,and on about it.....Even though there is a small amount of sexual content, it is not over done,and I have read many books;where I would skip over the pages.....that, to me are very over done.....will read

more of her books...

Loved the banter between the three main characters. Could not put the book down. I am eager to find out about the Deverell Obsession.

The second entry in an unofficial trilogy (along with Julia and the Devil and Deverell's Obsession), this book is quite wonderful. Both main characters are smart, witty and their dialogue, as well as the plot, are well worth your time.

The plot of this book is very detailed and interesting. It makes the book a quick read because you cannot put it down. It is very different from other Regency books I have read. Enjoy.

The story was interesting and different. I had a difficult time connecting with the main characters, but I still enjoyed the book.

this book was so silly that I couldn't even finish it. normally I can make it to the end by scanning the pages when I don't like that writing and the plot. not so here. just awful. I have never written a review like this before.

The Fifth Wife is a great regency piece of fiction. Charles finds himself inheriting a title he didn't want nor need. On top of that, he also inherited a wife. Due to his family heritage he must marry into a specific family line. The only problem is that he must marry the next wife his recently deceased relative was to marry. How terrible for poor Charles since it was to be his relatives fifth wife. Hannah doesn't want to be the fifth wife and Lady Penvale. She lost four sisters to this cursed family arrangement and she has no desire to fulfill this obligation. So, she runs away and hopes to get lost in the New Forest. Charles needs to sort this mess out, and goes in search of Hannah in hopes that they can figure a way to get out of this mess, as he doesn't want to be married either. Little do these two realize fate has something else to say about all of this and they may not get a say after all. When a nefarious plot threatens Hannah, Charles may just realize how much Hannah has become a part of his life. The book has humor, danger, drama, and romance. I thoroughly enjoyed this book and I highly recommend it!

A man who just inherited a title and a wife he doesn't want. A woman who doesn't want to be

married just because of some agreement. And a dark secret that could kill them both. Charles just found out he is no longer just a sir, he is now a Lord. A Lord in title only and not only that, but he inherited a wife... The was soon to be the fifth wife of his past relative. Who seems to be now missing... Will he be able to find her? Hannah is on the run. She doesn't want a husband any more than the birthmark she was born with. Her only option is to stay ahead of everyone and avoid Lords at all costs. And try to live her small life her way. Now if only she can keep her hands off him once she seems him!
