## Customer Reviews

Fun. The characters are a bit convenient and two-dimensional. I kinda felt like I was reading a supernatural version of Archie at times, but it was readable enough....

Excellent books. The author is fantastic. Just wish some of the books were longer!

Lenny is getting a promotion, Charles is retiring and she will now run the paper. Her life becomes

quite busy with interviews to hire a new reporter, a couple dead bodies in the woods, and helping ensure Nate's return to work goes smoothly. I did guess who the killer was, I never did figure out what he was as far as the supernatural aspect. Not much use of magic in this story, just references to it. This author has a great plot, just needs more details and more use of magic. It still is a good read, so if you like light paranormal this is a good series for you. I had only read book one and had no trouble following the story. I received an ARC and am giving an honest and unbiased review.

This book is indeed fun! It was great to be back in Tree's Hollow with well loved characters plus the usual "dubious" new ones. Lenny is now in charge of the newspaper.....who will she recruit to work with her? Does she make the right choice? And why are bodies suddenly appearing in the woods? All is revealed in this well written, well paced story. Can't wait for book 5! I voluntarily reviewed an ARC of this book.

I just love this series. Lenny works at the town newspaper and is being promoted since Charles the boss is retiring. She gets to help choose her employee but is it the right choice? She and her boyfriend Nate, the forest ranger, are trying to figure out who is murdering people and leaving them in the forest. Fun cozy that keeps you turning the pages. I voluntarily received an advanced readers copy and this is my honest review.

Great Book--Fast paced. It grabbed my attention and didn't let go. Keep up the good work Sara. You've provided teachers and guides when necessary. Lennie's Aunt is there for the asking, the cabin is still in the woods for assistance from the Seer, and the other witch is VERY SKILLED. Good Job. Can't wait for the 5th book. Really like the new characters. A Were bear! Great new idea. Highly recommend this book.

I always enjoy the Tree's Hollow Witches books, and this one was no exception. A great storyline and mystery. Wish it had been longer, but the murder mystery and premise of a serial killer were great, as well as having fun characters in her story. Length and depth of story was not as compelling as the previous books in the story, but still a good read.

If you love paranormal mysteries as much as I, this is the series for you and book club. There is no strong language or excessive gore, so even young children could enjoy them. I like the idea of a book club of all reading ages. I'd love to hear the opinions of people of diverse ages. But maybe

that's just me...
