Good textbook! Has very detailed historical information but it is a bit biased. It does include the perspective of Native American as much as I would of liked. Overall its a great read. Very well organized.

Its a pretty decent book, although it does have some incorrect information.

Pictures are way too dark, it is a bad quality book, i would expect something better for the price.

good information tho.

Exactly what I wanted.

I bought a total of three books and they all came back in very good shape. No writing in any of them.
Thanks so much.
