Gave this book to my daughter, who was moving into her first apartment. She loves it. She calls & read parts of it to me so we can both enjoy this sweet, funny, helpful book.

Bought this sight-unseen as a gift for someone per the recommendation of a friend, and I'm SO glad I did. It's the sweetest damn book you'll ever see. The content is fun and helpful, and the illustrations are charming. I immediately ordered one for myself and this will be my go-to gift for friends!

My 7 year old daughter is quite taken by this book and is learning a lot. It's almost like a book of little science experiments that she can apply around the house.

I got two books, one for my friend for her birthday and another for myself. The book cover is great, stiff and resistant to damage and the inside of the book is awesome as well. The every page has drawings and is all handwritten, giving it a quirky touch. The book topics range from things like diy stain removers to cures for headaches. Overall, I really like the book. It's fun to flip through and the few things I have tried from it works great!

This book has a profusion of very detailed and very colorful artwork, with beautiful colors. Also, it's very charming.

perfect for presents

This book is visually lovely but the content is a little generic. I didn't really like the "dress for your body type!" Section because I think you should be able to dress however you darn well like!
