Woman Of The River: Georgie White Clark, Whitewater Pioneer

Synopsis

Georgie White Clark-adventurer, raconteur, eccentric--first came to know the canyons of the Colorado River by swimming portions of them with a single companion. She subsequently hiked and rafted portions of the canyons, increasingly sharing her love of the Colorado River with friends and acquaintances. At first establishing a part-time guide service as a way to support her own river trips, she went on to become perhaps the canyons' best-known river guide, introducing their rapids to many others--on the river, via her large-capacity rubber rafts, and across the nation, via magazine articles and movies. Georgie Clark saw the river and her sport change with the building of Glen Canyon Dam, enormous increases in the popularity of river running, and increased National Park Service regulation of rafting and river guides. Adjusting, though not always easily, to the changes, she helped transform an elite adventure sport into a major tourist activity.

Customer Reviews

I thought this would be more of a biography of this legendary women. It was a very repetitious account of the many trips taken thru the Grand Canyon. It could have been a much better read if it

did not read like a diary.

You may be as surprised by this book as I was - I bought it thinking that I OUGHT to read it to learn more about a river-running legend, but I didn't expect to enjoy it all that much. I was wrong. Author Richard Westwood engagingly tells the story of Georgie White Clark and how she came to be one of the most celebrated pioneers of Western United State river-running, especially on the Colorado River through the Grand Canyon. In surprising detail (including the names of many of her passengers and boatmen) this book describes the trips, travails, and triumphs of Georgie's long career here in the United State and elsewhere. The book gives brief details of Georgie's early years, but focuses on her river-running years starting in 1945 when she and Harry Aleson swam from Diamond Creek to Lake Mead, through 1992 when she died. To the author's credit he does not dodge the controversies that have marred Georgie's legend. Westwood frankly acknowledges and, in some instances, documents the validity of some of the criticisms leveled at Georgie over the years. He states what he knows or what his considerable research revealed, and leaves the conclusions up to the reader. Through this book you will get an unvarnished portrait of a unique individual, someone who left her imprint on a sport that largely didn't exist when she started and was a multi-million dollar industry when she died. You'll learn about an incredibly complex person: alternately engaging or aloof, compassionate or driven -- but always a pioneer. This very readable book includes over 50 photographs and maps that bring to life much of what is written, and give the reader a glimpse of Georgie's world.

Having recently been down the Colorado River I thoroughly enjoyed this book and it had a lot of relevance having heard the stories of Georgie Clark. Great read.

David read said this was great book. Vivian Robinson

A biography of one of the pioneers of commercial river rafting on the Colorado River through the Grand Canyon. Georgie--adventurer, raconteur, eccentric--started by swimming the rapids in the river, and continued running large commercial trips into her 80's in the 1990's.
