I just bought this book and I already wish I could return it. The editing is very poorly done - misspelled words, missing words from sentences, poor grammar and punctuation. It's very hard to follow the first few chapters and when I started to look at the recipes there are missing ingredients. Bad choice!

This is a diet book. It is very a very helpful book which is containing 150 recipes. All of the recipes are good for health. It is really needed for beginners who wanna control weight. Highly recommended.

This is a great little introduction to the paleo diet. Tons of useful information for getting started. Paleo for Beginners by Madeline Johnson is a great way to get into the Paleo diet, and one I'd recommend for anyone who is serious about losing weight or improving their health. What I most liked about this book was how focused the author was on making the switch to this diet easier. Chatham

guess Paleo's beginners eat cheese, dairy and don't know anything about grammar.
