Customer Reviews

Regular wear, great condition

I got this book for a college class taught by the author Patricia Shaw. It was a very good class and this book helped me learn the concepts associated with quality and performance improvement in health care. I bought this and will keep it because it will be a good resource in the future.

great book

More than half the chapters were highlighted in many areas in bright yellow.

Clear and concise

Needed this for class - served it's purpose.

Awesome

Everything was as described.

Great
