## Customer Reviews

...an excellent, must-read for local and visiting Teton County dog owners. It covers the ins and outs of dog ownership... -- Lisa Goldoftas, author *A unique and informative resource for any dog lover who ventures in and around Jackson Hole...* -- Daniel Forman, DVM. Owner, Spring Creek Animal Hospital, Jackson Hole, Wyoming This wonderful book will help you navigate the "Hole" with your dog -- safely, legally, and happily. -- Susan McElroy, author, *"Animals as Teachers and Healers,"* and *"Animals as Guides for the Soul"*

This well-written and informative book covers the complete doggie scene in Jackson Hole Wyoming and Teton Valley Idaho. The author/editor is donating all profits to two animal-related groups, Teton County PAL and PAWS of Jackson Hole.

Does your dog dislike being left alone? More importantly, do you have a hard time leaving your dog, even for world-class travel destinations? Whether you are a would-be traveler to Jackson Hole Wyoming, or a local with a dog, this book will help and inspire you. "Doggy Doings" is, as the title

says, a complete reference of information you will find nowhere else. There are chapters that will give you specific and immediately useful information such as where you can go hiking with your dog. For some reason, I particularly enjoyed the chapters with more "surprising" information: chapters that offered the kind of tidbits you like to think you never will need -- such as what to do if you and your dog encounter large wild animals -- bears or moose. The chapter on dealing with any type of emergency made for suspenseful reading. In all likelihood, most of us never will encounter those situations: the majority of the book deals with all the pleasures that you and your dog hope to find and can expect to find in one of the most beautiful spots on earth. This book, like the area it describes and helps you to access, is truly one of a kind. I highly recommend it and wish there were one like it for every area of the country. I liked how the book took into account and reached for a true community of people, environment and animals. You will both enjoy and use this book.

Imagine piling into the car with 4 kids, luggage and 3 dogs for your next vacation and not having any idea as to what you can do with the dogs once you get there. That was us last summer, heading off to Jackson Hole, and had it not been for this book which was referred to us by another friend, we would have never taken our dogs with us. It explains where good areas are to take your dogs, what to expect if you run into wildlife...bears etc. We never did, but we were prepared thanks to this book. The author did a wonderful job of researching all the valuable information in this book. Because of the information in this book, the whole family, from the kids to the pets had a great time. If you are planning a trip to the Jackson Hole area with your pet, this is a MUST read before, and during your trip!!!

Drove from Texas with my lab only to discover no pets in the national parks. Bummer. But found this book in Jackson and now we have wonderful hiking alternatives.
