My friend is getting married in Iceland this year and I'd like to make a real trip out of it. Not just for a few days. I'm planning on staying for one month and this is really helpful. I found some people online who say this is the real deal, no fake descriptions in this guide!

One of my friends went to Iceland recently and I heard such great things about the trip I decided to look into it myself. It's looking a bit into the future because I definitely couldn't go for another year or so but this book made the country look even more enticing.

This book with the top 20 things in Iceland quickly made it clear that we would not be a good match for Iceland. We were considering a three or four day stopover on our way to Ireland and this book saved us the need to explore that option farther.

Nothing about where to stay, eat, prices, tips to avoid crowds and get ahead. Otherwise a decent list and good description.

Expected a little longer travel guide. Good for a few travel sites in Iceland, but not overall guide I expected.

Ok resource - not great.

Nothing great.

Pretty minimal guide on Island. Not what I was looking for.
