This week I read into the Caribbean. I expected one thing, a travel guide, which I enjoy plenty well on their own, but what I got was something more. This book is a series of adventures from a life well lived. Dreffin interjects a certain level of spirituality into her work, and some of the best pieces, for me, were the short quotes at the beginning of each chapter, setting the stage. There are several photographs throughout and I could absolutely see this re-done as a glossy coffee table book. Each story focuses either on a sea creature or a locale. The stories are personable, with small family

details intermixed and by the time you pass through the third story in the collection you begin to feel like a stowaway on a family's adventure. Dreffin does a very nice job of bringing her family into the work and making this more than a solitary travel log, but at the same time, the family is not the story, they are just witnesses to it. This book is not the dry stuff of your typical travel book, detailing every nook and cranny for the planning traveller. This is a Captain's log, it is a love story to all the places this family visits and all the amazing animals and people they encounter.The Caribbean is always one of my favorite destinations, and this book made me start watching Beach House Bargain Hunters and dreaming of escape. I love the idea of an unfettered life, and Dreffin captures that sense of adventure in these stories. I enjoyed it, and suspect the memory of feeding the stingray, or watching the hatchling turtles struggle to the sea, will stick with me for a long time. Dreffin puts enough of her "self" into the work for the reader to feel escorted, but not so much that the reader feels a voyeur. I walked these stories as if they were my life, and for the short hours it took to enjoy them, it was.

Wow you're my soulmate. I love this book! I'm also a cruiser, living my dream and I can recognize all the dreams, doubts and sometimes also the fears that you expressed in such a realistic way. Great book, Thank you Tina

WOW Tina Dreffin....feeling like I am already living vicariously through your inspiration and fun adventures. You bring our dreams to reality with every story you tell.CheersTina HeimannBella Cay

I just read this amazing book and it is incredible! A really fun, exciting and amazing collection of stories that make you feel like you are right there - step by step in the Caribbean on each adventure... An insightful and engaging author!

Great read of life and times well lived

Not worth the time nor the money. All of the 5 stars must be from her cruising friends

Good travel writing has to be about more than "places" -- and that's exactly what makes Bluewater Walkabout such a solid read. Tina Dreffin leads a life many would dream about. Sailing the world is quite an adventure, but in the depths of it all the real adventure is that of life itself--new beginnings, new challenges, and the redemptive power of love. Tina shapes all of this into wonderful prose and

a story all of us can relate to -- sailor or not. Good summer read!

Although this is a memoir, it reads like novel. There is suspense, intrigue, and adventure. You'll love following this family around the world. You'll get to see first hand what's it's like to live life aboard a sailboat. The very personal, touching story will keep you riveted!
