Customer Reviews

Got this for some refresher ideas not realizing it was the sequel to the authors Baby puree book. So, it starts at 9 month recommendations. Recipes look straightforward and simple (and adjustable if you are dairy free or grain free it would be easy to substitute). She gives recommendations for those foods you should try to purchase organic based on budget in each recipe. My toddler will likely

approve of the toddler recipes that would also be family friendly (baby recipes even) but my baby is dairy sensitive so would need to substitute accordingly. Update: Further review and thought - I have decided to return it because it is not what I was looking for although it does have things kids would like. Still a good book just not for me.

first edition - baby food - was interesting. Not many recipes that can be used here

gave as a baby shower gift. Mom loved it and is using it now.

meals are easy to prepare. My babies love the foods!!! Amazing!!!

Purchased as a shower gift. Was an absolute hit with the mom to be!

Lots of good ideas to try

love it
