Customer Reviews

I just got this (very inexpensive in comparison) book and I have to say that even though it is short, the author has really boiled down what you need to know to defend yourself and win. There is no fluff, no war stories or space fillers, just what you need to get through one of these. Debt Buyers have gotten very aggressive during this (down) economy, and many of the debts people are getting hit with are not even theirs to begin with or were paid off long ago. These junk debt buyers hope that by threatening you they can bully you into paying. The author does an excellent job in

guiding you through the steps to fight back, and also makes easy-to-use forms available on his website that you can download and fill in the blanks to suit your need. Understand that there is some legwork to be done on your part, but this book could save you a lot of money and more important, aggravation, in dealing with these bottom-feeders. And once again, the cost of this book is minimal in comparison.

This "book" is a waste of money! I learned more doing a 5 minute "google" than I did from this silly pamphlet - and believe me, that's what it is. It's like a little leaflet you should get for free as a promotion for a REAL book! What a huge disappointment. Bad deal.

Short and to the point

Great item and super fast shipping, thanks.

Has proven very helpful. Filed response to credit card suit in only 3 days.

Written by an attorney in a very concise little book which basically outlines the steps when you are sued by the credit card companies and how to respond.

Short & to the point. He didn't Cover anything I had not read before. Book is good for someone who needs help with this sort of stuff.
