Customer Reviews

Cynthia Johnson has more than 20 years experience in writing and editing test-prep guides for America's leading educational publishers.

Would have liked for the passages and questions to be more difficult. They seem to be well below the academic level of the real ACT.

It's impossible to find ACT and SAT practice books that replicate the official study guides. That said, this little book comes pretty close. The questions are invariably easier than those on the test, but they are at least clear and well-written--something most other study guides fail to accomplish. Also the reading passages are well-selected, even better than those on the test. I use these books as supplementary reading practice for 7th grade and up, so they're not just for ACT takers. Because the questions are straightforward, even younger students can answer them.

Nice book. Fast shipping.

I would Consider this book, it's Awesome! But I was kind a expected 10 questions on the reading part not over 10questions so I can score myself while practicing.

Best book to be familiar with the ACT English and Reading section.

Good book for studying

I love this book, I need to do more exerise.
