If you love to cook and also dream of a TARDIS suddenly showing up in your bedroom one night: this is for you! I'm not sure how well these recipes will turn out as far as taste but that is secondary to being able to make Doctor Who themed food! It's a super cute, thick well made book that is full of monster commentary and imaginative versions of Whovian food related items. I love this cookbook! So fun and it's the only cookbook in my library (I collect cookbooks) that I don't care a bit about how tasty the recipes turn out! Lots of fun for you or foodie Who fans. Definitely recommend it and would

buy it again in an instant!

I don't know why so many people are complaining. Are there recipes from the show? A few. Are some of the recipes challenging? Absolutely. Are some so simple that you could do them on your own? Sure. But the thing is, the entire cookbook is filled with wonderful recipes referencing Doctor Who and the various characters and species from the show, and the recipes themselves sound absolutely delicious. My personal favorites (aka the first dishes I'll be making) are the fish fingers and custard and Dalek-table Army. All in all, 5/5, and I'll likely be purchasing a copy for my Whovian friends.

This is a MUST for any Dr Who fan!! I bought this for my sister in law, who is a huge fan. When I bought it, I thought it was a soft cover. When I got it, I was very very impressed. Full color pages, easy to understand and read recipes, I am almost tempted to keep it for myself. LOL.

I gotta say, i wasn't expecting the book being so good. I loved it, the book is amazing, i do love the recipes, i can modify few ingredients if i like but i love it. The quality of the book's pages is pretty good. Easy to read and amazing pictures.

Incredible! This cookbook is more of a coffee table book because of its stunning quality photos! Every recipe is adorable and any Dr. Who fan will recognize all the references! The difficulty of the recipes is a bit much on some of them but I don't even care, the book is just too darn cute for me to give it less than 5 stars.

I purchased this as a present for my friend who is a HUGE Doctor Who fan. She was so excited when she pulled it out of the bag! The pictures are fun, vibrant, and a lot of the recipes look like they would be a lot of fun to make. Definitely recommend.

This is a wonderful novelty but I can't see myself making any of these recipes. Honestly I'd recommend this as a collectors item and not a cookbook.

This is a wonderful coffee table book. People love looking thru the different names init. Always gets a laugh too. I have not tried any of them yet but I will soon.
