## Customer Reviews

This book is a must-have for any guitar collector or anyone who want to keep track of the value of their guitars, amps, vintage pedals, etc. I have purchased this every year for many years, and it is also a great reference to keep track of the trending value of your instruments. This is truly the "Bible" for pricing guitars and amp. Very highly recommended.

It's a price guide. It's not the be-all end-all but it's a solid source of pricing info for the major releases from the major brands. h

Very helpful for guitars. Need to hire somebody to do more on bass guitars. pretty slim in that category.

These are great guides. I periodically buy one to update my guitar and amp ruder on my homeowners policy.

This is a must have for any guitar player interested in vintage instruments.

This is the industry standard for determining the value of vintage instruments.,

Great price on the ultimate price guide!

Terrific Resource
