Customer Reviews

Hated for the series to end. Well written, great story and characters you come to like and respect. The way the world is going today a division between the genders seems this to have already begun and this might be in our future.

What an emotional read !!! There were many trials and tribulations to overcome, some with happy endings and some not. In the end , sacrifices were made, changes were instituted, and the Gender divide ceased.

But to tell the truth all of them were awesome " " but this one had me talking out loud to the characters and feeling like I was there. I loved the Gender Game series, I'm enjoying all

of the different books you've written, I do multitask reading. Thank you

Ok well this is the last book in the series .. this book will have you crying your eyes out and jumping out of your chair hopping and a hollering .. all I can say is get you some tissues and hold on for this ride to the end .

Violet and Viggo's saga is incredible ! Their adventures are constant all the way to the end. Some characters we have come to respect do not live. I recommend it highly!

I loved the final conclusion to this book. Sad to see the characters go but so happy she is doing another series from what they found in this book. I think this authors writing is getting better and better with each book. Definitely a series to read!

Great conclusion to this wonderful series. It has been an awesome journey watching these gender games play out. Can't wait to see what's next!

I enjoyed this book and was glad that she wrapped it up well and that it was not all happy at the end but it also didn't leave you depressed
