# **MARITAL EDUCATION IN TEXAS: TREBLE-UP: Use 3 Forms Of Birth Control**

## Synopsis

Marital Education • 83% of Texas schools do not teach young people how to prevent pregnancy or avoid disease, leading to Texas being fifth in teen pregnancy, first in repeat teen pregnancy, and third in HIV rates in the United States. Even if abstinent until marriage, young people need contraceptive information to plan their families and avoid disease. This book tackles the problem head-on, providing a summary of each type of modern pregnancy and disease prevention methods, including fertility awareness based methods, barrier methods, hormonal methods, and IUDs. It discusses the most common reasons for failure of each type of birth control, and provides instructions for use and for reducing the failure rate. Using two or even three types of birth control at the same time provides overlapping protection and reduces the risks.

• Use three forms of birth control.

## Customer Reviews

Treble-Up is a grass roots organization dedicated to reducing teen pregnancy in Texas.

Very interesting approach to try and bridge the divide between conservatives and liberals on the issue of sex education by teaching "marital Education" instead. Teaches contraceptive use in the context of marriage and never discusses abortion, starting with fertility awareness methods. I did notice that withdrawal, while mentioned, was not treated in a separate chapter as all the other methods were, and wonder why the oversight. Chapters were easy to read and seemed quite informative and complete--withdrawal aside.
