# The Bullying Workbook For Teens: Activities To Help You Deal With Social Aggression And Cyberbullying

## Synopsis

Being a teenager is difficult enough without having to worry about bullying. If you have experienced bullying or cyberbullying, you aren't alone. Bullying and cyberbullying are at an all-time high, and the effects of both can be tremendous for a young person who is already dealing with major school, life, and home stressors. The Bullying Workbook for Teens incorporates cognitive behavioral therapy (CBT) to help ease anxiety, fear, stress, and other emotions associated with being bullied. The workbook is made up of 42 step-by-step self-help activities designed to help you learn anti-bullying tips and strategies, manage emotions such as anxiety, fear, anger, and depression, and learn constructive communication skills to help you express your feelings. With this workbook as your guide, you will also learn how to identify toxic friendships, how to build your own self-confidence, and importantly, how to ask for help when bullying gets out of control. The exercises in this book are designed to be useful in everyday situations, so that you gain helpful tools to help you combat bullying or cyberbullying in your life. Bullying can happen to anyone, but there is hope to make a change and stand up for yourself, once and for all. If you are experiencing bullying, this book will offer sound psychological support to help you gain confidence in yourself and in your interactions with others. It is also a great resource for parents, educators, and counseling professionals.

This book has been very beneficial. Currently doing a therapeutic group based on bullying, coping mechanisms, and self-esteem. It has provided me with many great ideas to utilize with this group.

This book had several ideas and activities that corresponded with realistic situations surrounding bullying. I would strongly recommend this to mental health professionals and guidance counselors if they have the time.

Great book!

I work with teens and the ones dealing with bullying say this is helpful. Kids just need to feel like they have options for dealing with bullies and this gives it to them.

My 13 yr old daughter has been bullied and it has caused her severe depression, this is a great workbook, even her counselor recommends it.
