Shipping Weight: 15.5 ounces

Average Customer Review: 5.0 out of 5 stars 5 customer reviews

Best Sellers Rank: #1,013,388 in Books (See Top 100 in Books) #77 in Books > History > Military > Uniforms #38695 in Books > Engineering & Transportation > Engineering #51619 in Books > Politics & Social Sciences > Politics & Government

## Customer Reviews

218 pp.

A classic reference for the historian and insignia collector. This is one of the most varied and best illustrated works available.

Really great general reference if you are a collector of militaria, covers a wide variety of countries, ranks rating and speciaties. Perfect for the beginning collector

can't find a better book

Very pleased with condition of Book.

Like many people, this series of books was my introduction to collecting military insignia back in the 1970's. More sophisticated books came out in later years, but these remained among my favorites. For one thing they were a compact size, inexpensive, and easily fit in a carry bag at militaria shows and flea markets. Nothing like this has come out since, and I readily recommend the books from this series to the beginning collector or historical researcher. They can still be found in good condition

for a very reasonable price.
