What We Believe We believe that travel leads to a deeper cultural understanding and compassion and therefore a better world.

I'm just back from my first (and not my last) trip to Kauai. I bought 7 Kauai travel guide books to plan my trip (yes, I was overly excited). Of the 7, this and one other were head and shoulders above the rest. I strongly recommend it.

This book is thin and not as well done as other lonely planet books. For a trip to Kaua'i, I'd recommend another publisher's travel book. I purchased this book along with "the blue book" on Kaua'i. I found the blue book to be much more comprehensive as well as more entertaining to read.

Please relate to my comments on the other guidebook about Queensland.Kauai Guidebook was not as deceiving as that one, may be because being so thin, we didn't expect very much from it, and... come on!!! Hawaii anyway!!We got an address for a place to stay, the rest was decided either thanks to comments from colleagues who had been there already, or from the REAL guidebook series for Hawaii, the blue series. A colleague loaned it to us. At the beginning, being so used to Lonely Planet we thought we will sticked with it. Truth is we, never used it there, only the blue book which offers detailed descriptions, interesting comments and very useful maps.
