4 Stars because I didn't love ALL of the stories, but I do like the genres and having small doses in short-story form let me explore authors I may not have come across on my own.

Some absolutely wonderful stories in here by excellent authors. Going into detail would spoil many of them, but suffice it to say, a great read nonetheless.

It's something I can read, put down, and come back to. I'm enjoying it very much.

Well worth the time. You will discover new authors to obsess over. Defin something I'll reread in the future. Great book

It's great to have F/SF available finally in the "Best American" series. These stories are indeed the best, with each showing the humanity in the genre.

A terrific collection of scifi and fantasy with a bit of a literary bent. Not a single dud in the bunch.

This is a truly wonderful collection of stories. I generally buy books, read them and sell them but this is finding a permanent home in our bookcase.

Great selection of both dark and whimsical sci-fi and fantasy stories. Joe Hill's foreword is also a thing of beauty.
