This is not a book to be read immediately before or immediately after a meal. You will learn more about the logistics of removing human waste from wilderness areas than you probably cared to know. You may find yourself screaming in horror as you hurl this book as far as the walls of the bathroom will let you. You will laugh and in the process, you will learn something about whitewater rafting from the stories, the diagrams, and the glossary in the back. This is a bathroom classic. Choose your time for reading it carefully!

Funny book for a white elephant gift lol

Thought it would be a funny book to pass around among my friends, but it wasn't very funny. The stories drag on and on and you're waiting for a good punch line, but it's not that funny.

A must for every river runner and a spare to be kept in the groover supplies box (in a ziplock of course. Hilarious!

This s*** is just funny. Unfortunate for several in the book but still hilarious!

As a former rafting guide, I found this familiar and hilarious! Takes potty humor to a whole new level! Don't drink anything while reading, you'll wind up spitting it out when you laugh so unexpectedly!

FUN!!! lots of it. I just laugh all the way through this book. If you like to camp, and nature, you have been there.

Funny book for the bathroom.
