The Allen Vizzutti Trumpet Method, Bk 2: Harmonic Studies

Synopsis

Expertly written by the renowned trumpet virtuoso Allen Vizzutti, this comprehensive new trumpet method provides a fantastic assortment of all-new intermediate to advanced-level exercises and etudes in all keys. It is organized into three volumes for greater study flexibility: Book 1, Technical Studies; Book 2, Harmonic Studies and Book 3, Melodic Studies.

Customer Reviews

Mr. Vizzutti's studies makes trumpet playing a bit easier. His study of double and triple tonguing makes learning those techniques easier and faster and less frustrating. His chordal studies are good as well. I have book one and will likely purchase book three in this series as well.

Good product, great delivery and at good value

The Allen Vizzutti studies are written for intermediate/advanced players. However even if you are a beginner, do not hesitate to invest in these books as at some point you will be glad you did. Even as a beginner you can start working on the first few pages that are great for getting the different chord structures "in your ear" - that is followed up by technical drills similar to (but not the same as) those in the Clarke technical studies. Check out Allen's master classes and instruction videos. If you would like trumpet instruction by someone who is endorsed by Allen Vizzutti, then check out Greg Spence "Mystery To Mastery" videos. These videos and his personal instruction (you

can take lessons via skype) have laid out for me the path to obtain a secure upper clarino range without "beating up my chops". Notice for instance how Allen Vizzutti and Greg Spence make it look so easy to play in the high clarino range. They seem to do all this completely effortless.

I have all 3 Vizzutti intermediate/ advanced books and I can say that they are full of good material which, if followed, will give a solid education in trumpet playing. These are not beginner books! Much of the material is quite difficult, but is presented in a way that is enjoyable to attempt and finally conquer. There is so much good stuff in these books. I would like to see an addendum --some kind of guide to show how to use them. Maybe down the line.
