Cases And Materials On Torts, Tenth Edition (Aspen Casebooks)

Synopsis

This highly successful casebook integrates modern scholarship and historical background to provide students with a thorough understanding of tort law. Written by leading scholar Richard Epstein, *Cases and Materials on Torts* takes an explicitly economics-based point of view and examines the processes of legal methods and reasoning, and the impact of legal rules on social institutions. The Tenth Edition welcomes new co-author Catherine Sharkey, an expert on punitive damages and federal preemption of state tort law. Hypothetical problems have been added to assist students in their understanding of core issues. New developments, such as privacy and defamation in the Internet Age, and the relevance of race and gender in calculating damages, are given thorough coverage.

Features: Written by a leading scholar in the field, Economics-based point of view makes a good foil for counterpoint and fuels class discussion. Traditional approach integrates cases with modern scholarship on moral theory, law and economics, and salient policy questions. Begins with Intentional Torts and other physical and mental harms, and progresses logically through to nonphysical interests. Thoughtful presentation examines the processes of legal method, legal reasoning, and the impact of legal rules on social institutions. Exposes students to different intellectual approaches that have been employed to interpret tort law over the years. Historical background provides contextual framework of tort law and its development up to the present. Thoroughly updated, the revised Tenth Edition includes: New co-author, Catherine Sharkey, an expert on punitive damages and federal preemption of state tort law. Empirical approach to many issues harmonizes the topics with cutting edge scholarship. Hypothetical problems, inspired by the facts of actual cases, to help students develop a deeper understanding of the core issues. New issues are explored, such as privacy and defamation in the age of the Internet, and the relevance of race and gender to damages calculations.

Customer Reviews

Richard A. Epstein is the James Parker Hall Distinguished Service Professor of Law at the University of Chicago, where he has taught since 1972. He has also been the Peter and Kirstin Bedford Senior Fellow at the Hoover Institution since 2000. He is the author of numerous books--including *Takings*, which is regarded as the bible of the property rights movement--and has written for *The Wall Street Journal* and the *Financial Times*

used for class

This casebook is well organized and offers tips before and after the cases to help you understand the Torts better. Very Useful!

Let's face it this is a required text---it doesn't blow my hair back, but the current kindle edition contains both location information and real page information (based on the print edition).I much prefer this edition over having to cart around the hardcopy.

Managed to snag an epic deal with a used copy. This was required for my torts class, but this is my favorite casebook series.

It was an amazing purchase and I expect future deals exactly like this.

Very marked up but that makes sense, it was cheap

Case content is excellent. The pages are extremely thin.

Thank you
