Customer Reviews

There are definitely better cookbooks out there. I purchased the kindle edition so at least it was

cheap. I don't know about the print edition, but the kindle version has the lamest intros to each recipe. It would have been better without them. Definitely didn't make the record more appealing. I tried one recipe, but it wasn't good.

Slow cooker is a working vegan's best friend. For me it was worth it as I love to collect slow cooker recipes....yes you can find them on line but it sure is nice to have so many all at one place. I enjoyed cooking some of the recipes and would love to share it to my friends.

I have been absolutely thrilled that i decided to buy this book. The book has some excellent insights into the benefits of a vegan diet and the convenience of using a slow cooker. This cookbook is a complete treasure because it has a huge variety of incredible vegan recipes inside. I recommend this book to anyone who is interested in a healthier way of life coupled with the convenience that a slow cooker can bring to our busy lives.

Slow cookers are traditionally used to create warm, filling, and hearty one plate dishes. Stews, chowders, soups, etc...I cooked at least half of the recipes in this book and all have been enjoyably tasty!Although it is a vegan cookbook, many recipes allow for easy substitutions or additions for non-vegans.

If you are thinking of going vegan this is the cookbook for you. This book is full of healthy vegan recipes that will start you of on your journey to be a vegan. I am very pleased with this book. I highly recommend this book to all the people including friends and family to start a healthy diet..I absolutely think this is great book. .

I am so happy to have found this vegan cookbook as I use my slow cooker regularly. This is a my favorite cookbook. It is full of delicious, simple, and affordable recipes.This book has compiled a great collection of Vegan eating slow cooker recipes to suit your appetite and help you to save time and energy in the kitchen.

I'm leaning towards this vegan lifestyle but to get started I need to learn how to prepare a bunch of vegan slow cooker meals and this book will be the perfect first big step for me. I tried a bunch of vegan recipes and I was impress on well written and detailed this cookbook is.With this cookbook under my hands, I will be able to prepare and planned my breakfast, lunch and dinner meals for me

and my family so getting started in vegan lifestyle has become a lot easier.

I bought this book mostly for my mother. I have a vegetarian turnip and sometimes I do not want to be surprised by recipes. Now I can do this absolutely easily! Already several did and it's very easy and simple! Thank you
