Don't leave home without STREETWISE.' --The New York Times'STREETWISE is an absolute travel essential.' --Travel + Leisure Magazine'In a strange city, your sense of direction is only as good as the map in your hands. The best maps to carry are published by STREETWISE.' --Chicago Daily Herald

STREETWISE® is the first map to be designed with modern graphics and is the originator of the laminated, accordion-fold map format. We've set the standard that every map company has imitated but never duplicated. Our mission is to make you feel comfortable, to make you feel safe in a place where you've never been before and to enable you to experience a familiar place more fully. The company was founded in 1984 by Michael Brown, who had been in international publishing for many years, setting up subsidiaries for textbook publishers. In the 1970s, Brown traveled extensively throughout Africa, India, the Middle East and Southeast Asia. Brown would take a large paper map, cut out the city center, folded it up and slip it into his pocket, thus preventing him from looking like a tourist in areas where discretion is the better part of travel. This was his tool for surviving. After many years on the road, Brown settled back in New York and decided to start his own business, based on the adaptations he had made to maps in his travels. His goal was to give someone the ability to navigate easily in unfamiliar terrain. He started with a new map format: the accordion fold. Such a simple idea, but at the time it was revolutionary. No more struggling to fold an awkward, oversized paper map. This new format would enable the user to blend in like a native, instead of stick out like a tourist. Brown then added lamination to ensure that the map would be a lasting tool. More important than the format was the design of the map itself. It had to be a map that not only succeeded above and beyond any map he had used, but was esthetically appealing as well. The look of it had to be as striking as the functionality. Color was introduced in a way that was never seen before in a map - vivid purple for water, soothing gray for the background of street grids, gold to highlight elements of the map. Clarity, conciseness and convenience in a very stylish package. Building the business was a 24 hour job. Brown sold the maps during the day, zipping around Manhattan making deliveries on his Harley Davidson. At night

he packed the orders and did the design work. More titles were added, each title requiring months of research and design. Today, STREETWISE[®] produces over 130 titles for major destinations, regions and countries throughout the United States, Canada, Mexico, Australia, Europe, the United Kingdom and Asia. We have grown from the back of a motorcycle to selling millions of maps around the world. Yet each title is still painstakingly researched and updated. STREETWISE[®] is one of the only, if not THE only map company that conducts research by walking or driving an area to ensure accuracy. After all, what good is the map if what you hold in your hands doesn't match what you see on the street sign? This lengthy fact checking results in superior accuracy; in effect, we've done the work, now you have the adventure. In the end, it's not about the map, it's about getting out and finding your own authentic experience wherever you go. It's about being in a city or a region and discovering things that you never thought you would find. You can do this if you have confidence and you have confidence if you have a great map. STREETWISE[®] is the great map that you need.

Very helpful, compact, used this on a recent trip to Chicago. This helped in the planning stage and while on the trip it was consulted many times. Size was perfect to slip in my purse and it has many landmarks and tourist attractions that we wanted to see right on the map! I highly recommend this.

I initially purchased this prior to moving to Chicago in the hopes that I could keep it on my fridge as I checked out different neighborhoods. I really wanted something that showed me, in detail, the different train schedules and lines. It didn't work for that purpose (obviously it wasn't intended to go on a fridge, which is why it folds up and is laminated), but it has been incredibly handy map. My husband keeps it in his work bag all the time and references it often when he's walking to work or trying to find different streets. (He travels outside our usual areas much more frequently than I do.) In all, I'd say it was a handy little purchase.

Great, clear, easy to use map of almost everything a first-time visitor would need to walk around central areas of Chicago.

nice size map with CTA info. I found it most useful because I'd rather walk with a map than have my phone out with a map app on with a microscopic map on the phone screen

The Streetwise maps are honestly life savers in big cities. They help you to easily plan your routes

and trips without worrying with a gps that could lose it's signal amidst the tall buildings. I buy one of these maps for every city I visit and the Streetwise Chicago map stood up to my expectations.

I always buy Streetwise maps whenever I travel as I find them to be both reliable and durable. The Chicago map did not disappoint. The detailed map of the Loop area is particularly clear and useful.

I went through the list of places we wanted to see and put sticky notes on this map to help with planning. I didn't use it a lot once we were there but it came in handy to reference our plans.

these are a must have when using public transport in any big city. I've used them in NYC, San Fran, Chicago, Washington DC, and Boston. Everything is clearly marked but make certain you bring your reading glasses along also, because there is a lot of information packed into those tri fold pages.
