The Official Soviet AKM Manual

Synopsis

This official military manual, available in English for the first time, was originally published by the Soviet Ministry of Defence. The 7.62mm AKM assault rifle and its folding-stock twin, the AKMS, were based on the popular AK-47 design. This illustrated manual covers the history, function, maintenance, assembly and disassembly, confirmation of zero, penetration characteristics of various cartridges, trajectory and dispersion patterns, accessories and more.

Book Information

Paperback: 106 pages

Publisher: Paladin Press (January 1, 1998)

Customer Reviews

James F. Gebhardt is a retired U.S. Army officer who served as an enlisted infantryman (1966-69), armor officer (1974-83) and Soviet foreign area officer (1984-91). Gebhardt performed military duty in the Soviet Union and has escorted numerous Soviet scientific, military and diplomatic personnel on U.S. military installations in the United States.

good manual, nice exhibits, easy to follow, I have it as ebook, and can look at any page, section at any time for reference.

This is a good booklet for a beginner who doesn't know too much about AK's. The print is not of quality and illustrations are blurry. The information is good sound basic info. I would recommend the purchase of this to add to any gun library.

a good manual for one of the most famous weapon of the world

Excellent

I'm an advocate for AK's. So, use your best judgment. Its mostly historical junk, but some red army maneuvers. Not a lot of intrinsic detail on the AK.

I am very pleased with this manual, a lot of research went into this manual, I've found information I never knew before.

what can you say.the akm official manuel.

excellent
