This Blessed Earth: A Year In The Life Of An American Family Farm

Synopsis

Is there still a place for the farm in today's America? The family farm lies at the heart of our national identity, yet its future is in peril. Rick Hammond grew up on a small ranch, and for forty years he has raised cattle and crops on his wife's fifth-generation homestead in York County, Nebraska, in hopes of passing it on to their four children. But as the handoff nears, their small family farm and their entire way of life are under siege. Rising corporate ownership of land and livestock is forcing small farmers to get bigger and bigger, assuming more debt and more risk. At the same time, after nearly a decade of record-high corn and soybean prices, the bottom has dropped out of the markets, making it ever harder for small farmers to shoulder their loans. All the while, the Hammonds are confronted by encroaching pipelines, groundwater depletion, climate change, and shifting trade policies. Far from an isolated refuge beyond the reach of global events, the family farm is increasingly at the crossroads of emerging technologies and international detente. Following the Hammonds from harvest to harvest, Ted Genoways explores this rapidly changing landscape of small, traditional farming operations, mapping as it unfolds day to day. This Blessed Earth is both a concise exploration of the history of the American small farm and a vivid, nuanced portrait of one family's fight to preserve their legacy and the life they love.

Customer Reviews

"This Blessed Earth is a sort of universal story of family farmers and all they're up against in their efforts to take care of the land and make a living from it. It's also a crash

course in the history that brought us to this place of corporate power, shrinking resources, and a changing climate. But it plants seeds of hope as the next generation prepares to inherit the family land and all the joys and challenges that come with it. This book is an invitation to all who care about family farmers—*which after all is all of us, since we all eat!* —**Willie Nelson**, founder and president of Farm Aid—*“It’s not fair to claim that you are concerned about the country’s food system unless you truly understand the millions of unsung conventional family farmers who produce our corn, soybeans, and beef. Genoways portrays just such a family in a book that is factual, rich in history, and filled with characters you will come to know as friends. He writes with an investigative journalist’s mind and a poet’s soul.”* —**Barry Estabrook**, author of *Tomatoland* and *Pig Tales*—*“Ted Genoways brings a lifetime of knowledge to the complex story of modern agriculture. His depth of understanding is evident on every page as he follows the Hammonds through a year on their Nebraska farm, examining the way they are not only at the behest of traditional challenges such as weather and time but also subject to international trade agreements, worldwide competition, and the challenges of scale. In *This Blessed Earth*, Genoways masterfully illustrates the costs and demands of such a life, and beautifully renders the endurance and dignity of those who have chosen it.”* —**Jane Brox**, author of *Clearing Land*—*“Everyone who eats in America should read this lyrical and often heartbreaking book about life on a modern American farm. It will change the way you look at what is on your plate.”* —**Ruth Reichl**, New York Times best-selling author of *My Kitchen Year*—*“Farming, family, and food all come together in this beautifully written story of what it takes to work this blessed earth.”* —**Tom Colicchio**, chef and co-founder of Food Policy Action—*“In an impressive and compelling work of literary journalism, Ted Genoways dives deep into the heart of an American farm family, illuminating critical issues troubling our complex food production system. But he also describes in intimate detail the very human struggles of the work—between husband and wife, parent and child, father-in-law and son-in-law—in one family committed to growing our food and passing the work on to the next generation.”* —**Michael Ruhlman**, author of *Grocery: The Buying and Selling of Food in America*—*“Genoways writes of the environmental damage wrought by pesticides and overwatering, the risks of genetically modified seed, and the harm of flooding global grain markets with cheap corn. American farming frequently receives tough criticism on these points. The beauty of *This Blessed Earth* is to understand them from a grower’s perspective.”* —**Outside**—*“Unique....captures the complex reality of farmers in America today both in terms of the future of the industry and of their everyday lives. It is an unvarnished portrait striking for both its*

depth and humanity. – Publishers Weekly (starred review) – “A master at portraying the unique qualities of Midwestern life. – Kirkus – “Compelling.... This Blessed Earth is a cogent, well-reported examination of the forces putting the family farm at risk. – Booklist

Ted Genoways is an acclaimed journalist and author of *The Chain: Farm, Factory, and the Fate of Our Food*. A contributing editor at *Mother Jones*, the *New Republic*, and *Pacific Standard*, he is the winner of a National Press Club Award and the James Aronson Award for Social Justice Journalism, and is a two-time James Beard Foundation Award finalist. He has received fellowships from the NEA and the Guggenheim Foundation. A fourth-generation Nebraskan, Genoways lives outside Lincoln with his wife, Mary Anne Andrei, and their son.
