This is very much like the All together Now book you may have also seen. The lessons are NOT the same and one has more craft things then the other. We are using both books and love them both. These lessons give more then enough ideas to cover an hour program and I am sure you could do a hour and half program with it. The lessons really are made to teach both a 5 yr old and a 12 yr old at the same time. As I said with the other book, this is the book you have been praying you would find if you have a one room program.

This is the perfect curriculum for our small church where multiple ages are combined into one class. There are many different activities and ideas and the lessons are spot on! I never have to worry about "down time", it is full of fun and creative activities which all tie in perfectly with the scripture and message from the Bible.

I will buy every book in this series! Excellent Childrens church/sunday school material. Each lesson lists the supplies you need and has a game, a story and an activity. Plenty to keep the kids busy and learn about truths in a different way. Highly recommended!

We ordered this series for use in our Sunday School classes. We teach a class that ranges from 1st through 6th grade. The class size can vary between 1 to 12 or more students on any given Sunday. The students also come from a wide range of social, economic, and educational backgrounds. These books provide good lessons with material appropriate for a wide range of ages and skill levels, with reproducible handouts (so you can accomodate large changes in class size.) What's not to like?

Shipped promptly and was as described. Great for Kids.

I really like these books. The lessons keep with the Bible, and are designed to be interesting for the kids. The activities and crafts included are great. Has everything you need to teach children except for the few things you need to buy to complete the games & activities. Even if you don't buy what's needed, there will be something you can do without it. A copier is needed so you can copy things from the book for the children, or you can copy at places that provide that service.

This is supposed to be for K-5 grades, but it really tailors more towards the younger grades. I used it for a Wednesday night with 3-5 graders and it seemed hard to keep their attention. I felt that there

could have been more active learning and less talking. Kids at that age need more hands on learning, especially when they've been in school all day.

Great curriculum for our small country church!
