Customer Reviews

Intended for school children, Walkabout Dreaming is a good introductory book to teach aboriginal culture. It is composed of comprehensions, aboriginal words, bush tucker - food etc with a wide range of activities. I have picked up a few words myself as I was reading it. It also comes with interesting Dreaming stories about creation such as the story of black Crow and Eaglehawk. This is not a complicated book. The lessons are laid out simply about the aboriginal life and beliefs regarding creation and such in an understandable manner without much complexity.

This is a great little book regarding the history of the beautiful country down-under... Australia of course. Children (and even adults) will not only learn a lot, but will have fun in the process. Nice job Mr. Mardell!
