Best Sellers Rank: #660,764 in Books (See Top 100 in Books) #192 in [Books > Humor & Entertainment > Puzzles & Games > Bridge](#)

Customer Reviews

It is the definitive book on the 2/1 (two over one) convention. This book lays out the Reasoning along with a history In the development of 2/1 bidding practice; The process and implications of hand evaluation become easier to apply when understood in the context of the 2/1 system. Max Hardy gives explanations of the why along with how to implement this convention. I strongly recommend this book to anyone who desires to take up and/or improve their 2/1 bidding.

Too complicated. Bought Thurston book and use it instead. Don't waste your money.

I've read several books on this. Many recommend Audrey Grant. She's good and if you're just learning it's probably an ok book. This book is great. If you know bridge, this is the only one I know that integrates all the systems you should know into 2/1 - and isn't that how it should be? Why learn responses to 1NT and not learn Smolen? My only issue is it doesn't incorporate Bergen Raises. If that were in it the book would be perfect. LOVE THIS BOOK!!! My bridge bible.

Bridge conventions have expanded and changed in the 25 years since Hardy's book was first published. Nevertheless, I found his book quite useful in presenting logical explanations for a variety of bidding and playing conventions.

I guess this was the original "bible" on the subject, but I found it someone what out of date.

This is a "hard to read" book (especially for a non-native language reader). But a real textbook for 2/1 bidding system. You can find every detail and the logic behind it. The examples are plentiful, and ordinary hands. Need to buy 2 copies, and share with potential partner. Highly recommended.

Fairly good explanation of a difficult subject. The Audrey Grant book is a better read.

This book is very succinct. It explains the 2 over 1 convention in understandable language! I have now purchased 4 of them. One for me and three for the rest of our Swiss team...Thanks
